Dear School Director,

Panyarat High School, the ELITE High School of Mathematics and Science, invites you to the **7th Thailand World Schools Debating Championship (TWSDC)** which will be held from **February 10 – 12, 2018 at Panyarat High School, Bangkok.**

Over the past few years debating in Thailand has grown significantly among secondary schools and we would like to contribute by providing an opportunity for students to develop their English communication skills.

The TWSDC competition, themed “**Transforming our World for Sustainable Development**” will be contested in the World Schools Format. This will give students the opportunity to research specific topics as well as utilize their critical thinking skills to analyze the tough questions that face our world today. We aim to stimulate the best and brightest young minds by discussing current issues for living in the changing age.

We at Panyarat High School would like to cordially invite your school to join the Thailand World Schools Debating Championship.

Herein is an abridged copy of the rules and guidelines, their full versions can be found online. Should you have any inquiries, please do not hesitate to contact any member of our Organizing Committee members at studentaffairs@panyarathighschool.ac.th. Please access our official website www.debate.panyarathighschool.ac.th for complete contact information, details and future announcements.

We look forward to seeing your school at this competition, and we would like to thank you in advance because together we can cultivate the potential success of our young leaders.

Yours Sincerely,

Mr. Wachit Rattanapian
School Director
